CHANGELOG																
IN																
<i>Ulamog is necessary to attack The One Ring strategies so I added a second over the 1st Griselbrand.</i>																
<i>Thoughtseize has been added to replace a similar effect from losing Grief.</i>																
<i>Deafening Silence is an incredibly cheap effective card for Storm, also an enchantment for Atraxa to hit.</i>																
<i>Added a 2nd copy of Emperor of Bones since it is very effective against Phlage and in the mirror.</i>																
<i>Temporary Lockdown is added to attack Energy aggro strategies since it also exiles their Soul-Guide Lantern or Unlicensed Hearse.</i>																
OUT																
<i>Griselbrand is better into a fairer meta, which is the opposite of this Eldrazi and Ring meta.</i>																
<i>Wrath of the Skies was mainly there to attack Nadu and Urza's Saga strategies which have disappeared.</i>
